

Certification Update: SafeNet Luna Network HSM 6

Certified QSCD Qualified Signature/Seal Creation Device Certification by OCSI

Overview

We are pleased to announce that the Italian Organismo di Certificazione della Sicurezza Informatica (OCSI) has now certified that the SafeNet Luna PCI-E Cryptographic Module 6.10.9, when embedded within a SafeNet Luna Network HSM 6, can be used as a Qualified Electronic Signature Creation Device (QSigCD) and a Qualified Electronic Seal Creation Device (QSealCD) in accordance with Regulation (EU) no. 910/2014 (eIDAS). OCSI has published the [Attestation of Conformity](#) on its site and notified the EU Commission. Based on this certification, the EU Commission will be amending the list of [QSCD approved devices](#) accordingly.

About eIDAS

eIDAS (electronic IDentification, Authentication and trust Services) is an EU regulation providing a set of standards for electronic identification and trust services for electronic transactions in the European market. Customers who issue digital certificates, time stamps, or digital signatures can include SafeNet Luna Network HSM 6 as a part of an eIDAS-compliant solution.

Additional Information

- SafeNet Luna PCIe HSM 6, firmware 6.10.9, is Common Criteria EAL4+ (AVA_VAN.5) certified:
 - <https://www.commoncriteriaportal.org/products/#DG> (listed under the “products for Digital Signatures section”)
 - [https://www.commoncriteriaportal.org/files/epfiles/\[CR\]%20NSCIB-CC-38671-CR.pdf](https://www.commoncriteriaportal.org/files/epfiles/[CR]%20NSCIB-CC-38671-CR.pdf) (certification report)
 - [https://www.commoncriteriaportal.org/files/epfiles/\[ST\]%20CR-3524_18%20\(Release%20Version\)%20-%20Security%20Target.pdf](https://www.commoncriteriaportal.org/files/epfiles/[ST]%20CR-3524_18%20(Release%20Version)%20-%20Security%20Target.pdf) (security target)
 - Common Criteria User Guidance Document - CR-4119– REV 002, May 30th 2017 ([DOW0001937](#))
- The OCSI certificate refers to Luna SA, which has been rebranded as SafeNet Luna Network HSM
